## LGN TESTIMONIAL

**Question:** How has SportsNoggin.com helped you manage your golf league?

**Answer:** As golf league secretary, SportsNoggin has made my job much easier. It has an intuitive interface which allows me to quickly and easily enter each players scoring data. Our league members really like the fact that they have access to all scoring and hole by hole statistics throughout the entire season. The money we spent from our league treasury was well worth the value we all get from this service.
